REASONS FOR ALLOWANCE / COMMENT REGARDING DRAWINGS

1. This notice of allowability is in response to the amendment filed 29 January 2004, which cancels claims 1-4 and 6, amends independent claim 5 and amends dependent claim 7. Though the amendment inaccurately uses the legend "(original)" for claim 5, it is understood that claim 5 is amended according to the marked-up text of the claim provided in the amendment. The amended versions of claims 5 and 7 are allowed.
2. The following is an examiner's statement of reasons for allowance: Independent claim 5 has been amended to require "said piston including a valve defining an air outlet of said piston... wherein said piston includes a passageway for conducting to compressed air from said air inlet of said cylinder to said valve". The closest prior, Bannister (US 2,345,024), includes a piston having a passageway and valve; however, taken as a whole, the apparatus of Bannister ('024) would not be capable of functioning in the manner recited in independent claim 5, with the valve being "an air outlet of said piston", and the passageway "conducting the compressed air from said inlet of said cylinder to said valve", in combination with the remaining requirements of the claim. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
3. Applicant must submit formal drawings having uniform line thickness.
